LeetCode: anubhav0910

Summary

Software Developer and AI Enthusiast with **1+ year of industry experience** at Oracle, building production-grade **agentic AI systems**, **RAG pipelines**, and **MCP/A2A-powered microservices**. Published researcher at **ACM/IEEE AIMLSystems 2025**, hackathon winner, and author of a **top 10 all-time upvoted** article on LeetCode Discuss. Passionate about designing intelligent systems that solve real-world problems at scale.

Education

Indian Institute of Information Technology, Dharwad **2021 – 2025**
Bachelor of Technology in Data Science and Artificial Intelligence **CGPA: 8.6**

Avadh International School, Ayodhya **2019 – 2020**
Senior Secondary (Class XII) **94.5%**

Experience

Oracle **July 2025 – Present**
Application Software Engineer *Bangalore, KA*

- Architected a production-grade **agentic observability platform** using **LangGraph** state-machine workflows and **OCI GenAI**; designed **multiple AI microservices** for context enrichment, incident summarization, runbook generation, and output validation - cutting mean incident resolution time by **60%** for L1 engineering teams.
- Built an enterprise **RAG pipeline** grounding LLM responses in live customer metadata, knowledge articles, and operating procedures; implemented a **self-healing validation loop** that scores, critiques, and regenerates runbooks before serving, achieving a **40%** reduction in hallucinated resolution steps.
- Exposed platform capabilities as **MCP tools** and **A2A agent-to-agent** JSON-RPC skills using **FastMCP** and **A2A SDK**, enabling seamless LLM-native tool calling and multi-agent interoperability; added **OAuth** token forwarding, **Oracle DB** response caching, and **SSE streaming** for production-grade reliability.
- Designed and executed a load-testing framework using **k6** across **6+ critical systems**, simulating real-world traffic patterns to identify performance bottlenecks and API failures; tracked and resolved **25+ high-priority bugs** ahead of production rollout.

Oracle **Jan 2025 – June 2025**
Project Intern *Bangalore, KA*

- Built a UI and API test-automation framework from scratch using **Playwright** and **TypeScript**, integrated into the **CI/CD** pipeline with scheduled runs and automated email reports; supports **650+ active customers** across multiple service types, cutting manual regression effort by **80%**.
- Developed an AI chatbot for Events and Incident Management using **OCI GenAI** and **RAG**, enabling L1 engineers to resolve incidents efficiently by surfacing contextual solutions from runbooks and historical data.

Machine Learning Intern, IIIT Dharwad **Jan 2024 – Sept 2024**
Mentored by Prof. Dr. Animesh Chaturvedi *Dharwad, KA*

- Benchmarked 5 language models (mBart50, M2M100, NLLB-200, Google Translator, and IndicTrans2) using BLEU, STS, chrF, and METEOR scores, leading to a **15%** improvement in translation accuracy for Indian languages.
- Evaluated over **1 million+** translated sentences across Sanskrit, Hindi and English languages, optimizing model selection and reducing error rates.

Projects

Ghar Jaisa  | 

Full Stack Food Delivery Application

- Full-stack food delivery app featuring **voice/speech-recognition** ordering, real-time map tracking via **Google Maps API**, customizable menus (toppings, sizes, dietary filters), multi-method payment gateway (cards, wallets, COD), live delivery notifications, and an admin portal for menu, order, and sales management.
- Built a robust backend with **Node.js**, **MongoDB**, and **RESTful APIs**, enabling efficient data management and seamless CRUD operations for product management.

Insight Mate

AI-Powered Analytics Assistant | Hackathon Winner – GangliaTech

- Won the GangliaTech hackathon by building a multi-feature AI application integrating **9 distinct AI/ML capabilities** into a single **Flutter** app: object detection, pose estimation, NLP chatbot, barcode scanner, voice-to-text search, digital ink recognition, text-to-image, image search, and a natural language querying pipeline over structured datasets.

Connext |

Group Video Conferencing Application

- Built a real-time group video conferencing app (up to **7 participants**) using **WebRTC** and **Agora Web SDK**, with screen sharing, real-time text chat, and user management features including mute/unmute, speaker identification, and participant tracking.

Technical Skills

AI: LangChain, LangGraph, RAG, MCP, A2A Protocol, Context Engineering, OCI GenAI, PyTorch

Languages: Python, C/C++, TypeScript, JavaScript, SQL

Frameworks: FastAPI, Node.js, Express.js, REST APIs, GraphQL, Flutter

Databases: Oracle DB 26ai, OpenSearch, PostgreSQL, MySQL, MongoDB

Tools: Docker, Kubernetes, Helm, GitHub Actions, Playwright, k6, Postman, Git, Linux

Achievements

- **Published at ACM/IEEE AIMLSystems 2025:** Co-authored a research paper on “Cloud Architecture for Language Translation Model as a Service (MaaS) on Hugging Face” accepted at the *5th ACM/IEEE International Conference on AI-ML Systems*.
- **Amazon ML Summer School 2023:** Selected as 1 of **3,000** participants from **85,000** applicants, demonstrating exceptional aptitude in machine learning and data science. [Certificate]
- Authored **DSA Patterns You Need to Know** on LeetCode Discuss – ranked in the **top 10 most upvoted articles of all time** on the platform, helping thousands of developers master DSA interview patterns.
- **Competitive Programming:** Solved **850+ DSA problems**; **Knight** on **LeetCode** and **3-star** coder on **CodeChef**.
- **Hackathon Winner:** Led and won the GangliaTech hackathon for building **Insight Mate**. 

Certifications

- OCI Certified **Generative AI Professional**
- Oracle Database **23ai**
- Oracle **Foundations** Associate
- Oracle Fusion **AI Agent Studio**
- **Postman** API Student Expert
- **Supervised Machine Learning:** Regression & Classification

Positions of Responsibility

Sports Coordinator

IIT Dharwad

Feb 2022 – Sept 2023

Dharwad, KA

- Organized and managed various inter-college and intra-college sports events on campus.

Student Representative, Startup Development Team

E-Cell, IIT Kanpur

Nov 2022 – May 2023

Remote

- Contributed to entrepreneurship initiatives and startup ecosystem activities under E-Cell IIT Kanpur.
